Re: Gulfco Marine Maintenance Superfund Site, Freeport, Texas
Unilateral Administrative Order, CERCLA Docket No. 06-05-05A
Final Remedial Investigation Report

Dear Mr. Pastor,

The Environmental Protection Agency (EPA) and the Texas Commission on Environmental Quality (TCEQ) have performed a review of the above referenced document dated April 6, 2011. With this letter, the EPA approves the Remedial Investigation Report (Report) with the following modification:

(Executive Summary, p. 2): The Report states that the vertical extent of chemicals of interest at concentrations above extent evaluation comparison values in unsaturated South Area soils is limited to depths less than four feet. The recent soil samples collected during the tank removal action found chemicals of interest exceeding the comparison values at a depth of 4 ½ feet. The Report shall be revised to include this information.

This modification shall be incorporated in the referenced document and copies provided to the notification list within 30 days of receipt of this letter.

If you have any questions, please contact me at (214) 665-8318, or send an e-mail message to miller.garyg@epa.gov.

Sincerely yours,

Gary Miller, P.E.
Remedial Project Manager
